

SPORTS LOTTERY: **CRASHTEST SECURITY** THE BEST ECONOMIC CHOICE FOR US

Company Information

- + Company: Sports Lottery
- + Founded: 1970
- + Location: London, United Kingdom
- + Company Size: 200 employees
- + Branch: Gambling

WHAT PROBLEMS NEEDED TO BE SOLVED?

Previously, web application tests were outsourced to a third-party vendor and performed annually, which is costly. Due to the current threat landscape and the business's risk profile, the business decided to increase its testing scope with more online commerce.

An automated scanner like Crashtest offers better cost-effectiveness compared to outsourcing and the flexibility of automated testing allows for continuous testing during the development lifecycle and beyond post-release.

- + Higher cost-effectiveness
- + Cybersecurity risk reduction
- + Continuous testing implementation

»We were looking for a solution to free us from ineffective outsourcing. With the Crashtest Security Suite, we found an appropriate tool for our needs.«

Michael Harris, IT Security & Compliance Manager

WHY CRASHTEST SECURITY

Many reasons why Crashtest was adopted. The business was looking for an automated tool that could tick a lot of different boxes:

- + The tool was cloud-based, so the business didn't need to stand up new infrastructure and technology to be able to deploy the testing.
- + Crashtest allowed continuous security testing without incurring additional charges for retests.
- + We could integrate the Crashtest Security Suite within automated DevOps processes.
- + Crashtest Security would enable better compliance with ISO27001 and PCI DSS requirements.
- + Tests complete in a matter of hours, with the reports accessible immediately.
- + Offered a greater cost saving when compared to the current third-party service that was utilized.
- + Licenses are scalable. Should the business require ramping up its testing of

»Integrating the cloud-based Crashtest Security Suite in our DevOps process was critical. It's great that you can register and start scanning immediately.«

- Michael Harris, IT Security & Compliance Manager

THE BENEFITS FOR SPORTS LOTTERY

SO HOW DOES THE SPORTS LOTTERY BENEFIT FROM THE USAGE OF CRASHTEST SECURITY

The business has successfully set up a monthly testing schedule for its two main web applications and integrated Crashtests automated scanning within the nightly build process. We are seeing how quickly scans be set up and performed and how quickly the results are presented back. We will soon be starting a migration project that will require the testing of multiple APIs, and we will be able to use Crashtest for this rather than outsourcing. The Crashtest tool gives us total flexibility and control over our testing schedule rather than relying on the availability of a costly third party.

»With Crashtest Security, we can scan whenever we want, and we've set automated scans nightly.«

Michael Harris, IT Security & Compliance Manager:
