

OTTONOVA: AUTOMATED SCANNING WITH CRASHTEST SECURITY

Company Information

- + ottonova services GmbH
- + Founded: 2015, Munich
- + Location: Munich, Germany
- + Company Size: 180 employees
- + Branch: Insurance Industry

WHAT PROBLEMS NEEDED TO BE SOLVED?

A top priority of ottonova is the protection of sensitive customer data. They also want to focus on continuous improvement of their offered services and implementing required features from the IT team. To unite the two aspects, ottonova started a DevSecOps initiative. Crashtest Security is happy to collaborate with another leading-edge startup from Munich on advancing cybersecurity at the speed of DevOps.

- + Having an automated scan start as well as the automation of the scan results
- + Possibility to scan API targets and JavaScript
- + Integration into the CI/CD toolchain for continuous security

»Having the possibility of scheduling scans and retrieving scan results automatically is a crucial feature for us.«

Andreas Katzig, CTO at ottonova

WHY CRASHTEST SECURITY

With Crashtest Security, ottonova found a tool that is the perfect fit for their requirements, not only on the technical side but also from a business perspective.

»The easy setup, the scanning of future-oriented technologies such as JavaScript and API targets, as well as the easy integration into our existing CI/CD pipelines and internal development processes were the main arguments for ottonova.«

- Andreas Katzig, CTO at ottonova

The Crashtest Security Suite added a layer of security to each release with automated scans triggered prior to deployment. Integration into the CI / CD toolchain means the development team gets notifications of any vulnerabilities as soon as we find them, leading to quick fixes and a seamless process.

THE BENEFITS FOR OTTONOVA

SO HOW DOES OTTONOVA BENEFIT FROM THE USAGE OF CRASHTEST SECURITY

- + Protecting sensitive customer data
- + Constant and automated pentesting
- + Finding vulnerabilities before them reaching a customer

»The machine-readable report formats and the integration into vulnerability management systems such as DefectDojo were an immense advantage.«

- Andreas Katzig, CTO at ottonova

COMPANY DESCRIPTION

Otonova is a rapidly growing team of over 150 committed employees who do their utmost for our customers. This includes fair plans, lightning-fast reimbursements, and innovative features such as our telehealth appointments. Our customers always take center stage.
